Radiation Protection Officer
75 Francis Street
Boston, MA 02115

Gentlemen:

Enclosed is Amendment No. 05⁶ to License No. 20-17131-01. You should review this amendment for correctness and to assure that any changes in procedures required by the conditions are implemented.

Please note that your license incorporates the use of NRC's model ALARA program contained in Appendix O of Regulatory Guide 10.8 (Rev. 1), copy enclosed. This action was taken because your request did not contain information concerning the ALARA program that you will follow.

As of August 15, 1980, our licensees were requested to submit an ALARA program with any significant amendment, renewal, or new byproduct material license application. If you wish to develop and submit an alternative ALARA program that is at least equivalent to the model ALARA program, your license may be amended accordingly.

Condition 21. has been added in accordance with our June 4, 1981 letter to ALL MEDICAL LICENSEES.
