SUBJECT: SIEMENS POWER CORPORATION'S MARCH 31, 1995, RESPONSE TO NRC COMMENTS
ON DRY CONVERSION EXPANSION

Dear Ms. Swain:

Enclosed for your review is a copy of Siemens Power Corporation's (SPC) reply to our March 1, 1995, review comments on the dry conversion expansion revision to the license renewal application. Please inform me as soon as possible if another round of review comments is necessary.

If the replies are reasonably complete, please incorporate the information into the Environmental Assessment (EA) you are preparing for the renewal. As we discussed, I would like to receive a draft EA on or before April 28, 1995. NRC will review the draft EA and provide comments to allow you to finalize the EA before May 31, 1995.

This assignment is considered to be within the scope of work for Task 26 of FIN J5031, as amended. Please notify me immediately if you believe this assignment is outside the scope of work or if a time extension or additional funding is necessary.

If you have any questions, please call me at 301-415-8111.

Sincerely,

Original Signed by:
