SUBJECT

NRC ASSESSMENT AND REVIEW OF BABCOCK AND WILCOX (B&W) TESTING OF

YANKEE ATOMIC ELECTRIC CO. IRRADIATED MATERIAL SAMPLES

SUMMARY

* THIS IS A FOLLOWUP CALL FROM THIS DRAWING 10130AM CALL WITH B&W - OTHER

B&W PERSONNEL ON THE CONFERENCE CALL WERE Steve Fyfe, Supervisor Materials

Group, Tom Ballman Sr. Project Engr - Group's Group Engineering Services, Gary Gaud, Sr. Project

QA, Ken Stucky, Advisory Engineer/Component Engineering

Larry Campbell (NRC/DRC/VIB) IDENTIFIED TO B&W THE DOCUMENTS THAT THE NRC

would like to review and discuss with B&W. The documents identified include, but

are not limited to the P.O. to B&W from Yankee Atomic Electric Co., B&W, Nuclear

Services P.O. to their subvendors, Test and Calibration procedures and the QA

Manual applicable for the subject testing, and calibration records. Also it was

identified to B&W that the NRC would like to see the test equipment at the

test location, if possible, and any work process control sheets and QA/QC

inspection plans. B&W stated that the process control sheets and inspection plans

are not scheduled to be completed until around the first of September, 1991.

Also B&W stated that B&W Nuclear Services Company had contracted to B&W

Nuclear Environmental Services for the testing of the irradiated materials.
