SUBJECT

Radiology Services will be terminated as of June 5, 1995

SUMMARY

A RIII inspector called to discuss the termination of the licensee's Radiology Group on June 5, 1995. Ms. Scribner stated that none of the Drs. listed on the license will be providing services after June 5, 1995. The hospital has contracted with another consulting service, and are in the process of preparing an amendment to reflect that change of services including a request for a new Radiation Safety Officer. The request will be submitted as soon as the hospital is informed of the Radiation Safety Officer's records and training. Ms. Scribner stated that the Region would be informed prior to the June 5, 1995 Date. The inspector informed Ms. Scribner that the Amendment would have to be submitted, approved by the Region and notification to the hospital prior to the use of licensed material after June 5, 1995. The licensee will attempt to have all of the required information submitted in time for an Amendment, or they will discontinue use until the Amendment is approved. Ms Scribner thanked the inspector for our concern and advice regarding this transaction.
