SUBJECT: LICENSEE SELF-ASSESSMENTS RELATED TO SAFETY ISSUES INSPECTIONS

I am enclosing, for your information, a copy of a letter that was sent to all Region IV power reactor licensees. The subject letter concerns the results of NRC's review of the service water system self-assessment performed by you at your Fort Calhoun Station, as well as NRC's special inspection of the significant safety issue identified by your self-assessment. The performance of licensee self-assessments as an alternative to a major NRC team inspection is worthy of mention and one NRC felt should be brought to the attention of other licensees for their consideration.

If you have any comments or questions concerning the self-assessment letter I would be pleased to discuss them with you.

Sincerely,

Thomas P. Gwynn, Director  
Division of Reactor Safety
