

April 26, 1995

Florida Power Corporation
Mr. P. M. Beard, Jr. (NA21)
Sr. VP, Nuclear Operations
ATTN: Mgr., Nuclear Licensing
15760 West Power Line Street
Crystal River, FL 34428-6708

SUBJECT: NRC INSPECTION REPORT NO. 50-302/95-08

Gentlemen:

This refers to the inspection conducted by Ross Butcher of this office on March 5 through April 8, 1995. The inspection included a review of activities authorized for your Crystal River facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements.

The enclosed Inspection Report identifies activities that violated NRC requirements that will not be subject to enforcement action because the licensee's efforts in identifying and/or correcting the violation meet the criteria specified in Section VII.B. of the Enforcement Policy. Therefore, no response with respect to these matters is required.

However, the enclosed Inspection Report does identify additional examples of previous violations for failure to report to the NRC within the required time. These additional examples occurred prior to your proposed corrective actions having been completed. Therefore, you should supplement any previous responses to address the additional examples noted in the report.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice", a copy of this letter, its enclosure, and any reply will be placed in the NRC Public Document Room.
