

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

OCT 1 1990

MEMORANDUM FOR: Distribution List
FROM: Gary Burdick
SUBJECT: ISLOCA PROGRAM REVIEW AND ACRS
MEETING NOTICES

The EG&G Idaho, Inc. ISLOCA Research Program will undergo review in NLS-013 beginning at 0830 on Monday, November 5, 1990. All aspects of the program to date will be covered: engineering analyses; T-H analyses; human reliability analyses; and PRA front- and back-end ISLOCA analyses on Davis-Besse, Catawba, and Waterford. Responses to staff and peer review comments and effects of research completed since the previous (February 1990) review will be presented. The ACRS Thermal-Hydraulic Phenomena Subcommittee will receive an abbreviated presentation the following day.

All interested parties are particularly invited to the Monday meeting, one purpose of which is to prepare for the ACRS meeting on Tuesday. Meeting agendas and a revised draft of the Davis-Besse ISLOCA analysis will be distributed early in October.
