In the Matter of  
LONG ISLAND LIGHTING COMPANY  
(Shoreham Nuclear Power Station, Unit 1)  
Docket No. 50-322-OL-3 (Emergency Planning)

Dear Appeal Board Members:

In accordance with the requirements of Duke Power Co. (William B. McGuire Nuclear Station, Units 1 and 2), ALAB-143, 6 AEC 623 (1973), and other cases, the NRC Staff provides the following information as potentially relevant and material to the Appeal Board's consideration of Contention 7B (safety classification and systems interaction):

1. A letter, dated December 19, from Harold R. Denton to T.S. Ellis, III, of Hunton & Williams in response to an August 26 letter from Mr. Ellis to William J. Dircks (a copy of which was provided to the Licensing Board and parties by Staff counsel on September 16, 1983);
2. Minutes from a meeting of the Committee to Review Generic Requirements on October 26, 1983, at which the response to Mr. Ellis was discussed;
3. A letter, undated, from the Utility Safety Classification Group on the subject of safety classification (the Staff has not yet responded to this letter); and
4. A letter, dated October 27, 1983 from Mr. Ellis to Mr. Dircks, on the subject of safety classification.

None of these materials reflects any change in the positions taken by the NRC Staff with respect to Contention 7B in the Shoreham proceeding.
