SUBJECT: Region III Exercise Report of the October 26, 1983,
Exercise of the Offsite Radiological Emergency
Preparedness Plans for the Salem Nuclear
Generating Station

Attached are two copies of the Region III Exercise Report of the October 26, 1983, joint exercise of the offsite radiological emergency preparedness plans for the Salem Nuclear Generating Station. Delaware State and Kent and New Castle Counties participated in the Region III portion of the exercise. The report, dated November 25, 1983, was prepared by Region III of the Federal Emergency Management Agency (FEMA). FEMA Region II will furnish the New Jersey State and participating counties portion of the Salem exercise in the latter part of December 1983.

FEMA Region III staff will furnish a copy of this report to the State of Delaware and will request a schedule of actions for corrections of deficiencies. As soon as we receive and analyze the State's response, we will send you the results.

If you have any questions, please contact Mr. Marshall Sanders, Acting Chief, Technological Hazards Division, at 287-0179.

SUBJECT: Evaluation Report for the October 26, 1983
Salem REP Exercise

Attached is the FEMA/RAC Region III Exercise Evaluation Report for the October 26, 1983 Salem exercise. My conclusion is that the State and Counties demonstrated adequate capability to protect the health and safety of the public in the event of a radiological accident at the Salem Generating Station. If you have any questions, please contact Jim Asher of my staff.
