Gentlemen:

Thank you for your letters of March 16, and May 10, 1983, in response to our letter and attached Notice of Violation dated April 29, 1983. As discussed with you during an Enforcement Conference held at the Region IV office on April 12, 1983, we regard the violations discovered during the inspection with great concern and indicated that we would review your response, including the improvement made in your management controls, to determine if any additional enforcement actions are necessary.

Based on our review of your responses, we have no further questions regarding your corrective actions. We will be reviewing implementation of these actions during a future inspection to ensure that they have been effective in precluding future noncompliance.

Sincerely,

181

Glen D. Brown, Chief
Technical Program Branch
