Southern Nuclear Operating Company Comments on Revision of Fee Schedules;
Fee Recovery for Fiscal Year 2020, Agency/Docket Numbers
NRC-2017-0228, Docket No. PRM-171-1, and NRC-2019-0084

To Whom It May Concern:

The U. S. Nuclear Regulatory Commission (NRC) published proposed rule, "Revision of Fee Schedules; Fee Recovery for Fiscal Year 2020" (Agency/Docket Numbers NRC-2017-0228, Docket No. PRM-171-1, and NRC-2019-0084) in the Federal Register (85 FR 9328) on February 18, 2020. In this notice, the NRC solicited comments on the proposed rule by March 19, 2020.

Southern Nuclear Operating Company (SNC) has reviewed the proposed rule, as well as the comments submitted by the Nuclear Energy Institute (NEI) on behalf of the industry. SNC endorses the comments provided by NEI. In addition, SNC reiterates its strong support of the second FY 2020 policy change discussed in the proposed rule, "Amending § 171.15 Regarding the Assessment of Annual Fees for 10 CFR Part 52 Combined License Holders and Future 10 CFR Part 50 Power Reactor Licensees."

SNC appreciates the opportunity to provide comments and encourages future public meetings to discuss resolution of the industry comments so that the final rule serves in the best interest of safety in a cost-effective manner.

This letter contains no NRC commitments. If you have any questions, please contact me at 205.992.5316.

Respectfully submitted,

Cheryl A. Gayheart
