SUBJECT: ACCEPTANCE REVIEW OF WNP-1/4 FIRE PROTECTION PROGRAM

My memorandum dated January 29, 1982, you requested an acceptance review of the applicant's fire protection program dated February 27, 1979, the guidelines contained in Appendix A to Branch Technical Position NRC 9.5-1.

The applicant should be made aware that we also need:

1. The information requested in NRC letter dated May 5, 1981, R. L. Tedesco to R. L. Ferguson, concerning safe shutdown. This request was sent to WNP-2. It should also be sent to WNP-1/4.
2. A comparison of the fire protection program at WNP-1/4 to the guidelines of STP CNEB 9.5-1, which incorporates Appendix R to 10 CFR Part 50.

We will review the fire protection program at WNP-1/4 for conformance with the Standard Review Plan (NUREG 0800) Section 9.5.1, Fire Protection, dated July, 1981.

Mr. Al Neider of WNP-1/4 verbally informed us that a safe shutdown study, an Appendix R comparison, and a response to STP CNEB 9.5-1 would be submitted sometime in the Fall of 1982.
