DIRECT TESTIMONY

Of

DR. H. JACK GEIGER

And

DR. VICTOR W. SIDEL

On Behalf Of

FRIENDS OF THE EARTH, INC.

And

THE NEW YORK CITY AUDUBON SOCIETY

DS03

This testimony has been prepared on behalf of Friends of the Earth and the New York City Audubon Society by Drs. H. Jack Geiger and Victor W. Sidel. Dr. Geiger, along with his M.D. degree from Case-Western Reserve School of Medicine, has an M.S. in Epidemiology from the Harvard School of Public Health. He is the Arthur C. Logan Professor of Community Health at the City College of the City University of New York and Chairman of the Department of Community Health and Social Medicine in the School of Biomedical Education at City College. Dr. Sidel is a graduate of Harvard Medical School and has had additional training in epidemiology and biostatistics at the Harvard School of Public Health and the London School of Hygiene and Tropical Medicine. He has been a member of the Commission on Radiation Protection of the Commonwealth of Massachusetts. He is the Chairperson of the Department of Social Medicine at Montefiore Medical Center and Professor of Community Health at the Albert Einstein College of Medicine. Drs. Geiger and Sidel are co-authors of a major study of the problems of medical care organization and delivery in circumstances of widespread radioactive contamination (following a thermonuclear weapon detonation) and have published widely on the health and social effects associated with nuclear weapons. Both Dr. Geiger and Dr. Sidel are members of the National Board of Directors and of the National Advisory Board of Physicians for Social Responsibility. Copies of their c.v.'s are attached.

plants). It is our professional view that the proximity of the Indian Point reactors to areas of such high population number and concentration, given a finite possibility of such an event and the unknowability of its probability and character, makes adequate preparation to protect the public health impossible.

(1) Impossibility of determining the population at risk of significant radiation exposure in the case of an actual event.

Computer modelling under stated assumptions (type and magnitude of release, wind direction and velocity, plume characteristics, etc.) have been used to generate "at risk" figures in a wide variety of hypothetical scenarios. But in most actual events the data will simply not be rapidly available to determine which scenario is in fact being enacted, and therefore which population is at risk and which is relatively safe and unexposed. Accurate delimitation of the problem--or valid reassurance to others--will therefore be impossible. Further, computer modelling is necessarily based on idealized assumptions (e.g., constant wind behavior and symmetrical plumes and wedges) which are unlikely to be realized in actuality; nor will it be possible rapidly to determine the degree of variation from prior assumptions.

Thus this case varies radically from the case of

case of a major release of radioactivity, as 654,925 people if the wind at Indian Point is blowing toward the south-southeast; as 126,175 people if the wind is blowing toward the southeast; as 1,305,500 people if the wind is blowing toward the south; as 244,340 people if the wind is blowing toward the south-southwest; and as 48,610 people if the wind is blowing toward the southwest. In fact, for purposes of this analysis, it does not matter in which of the above directions the wind is blowing. In each case, it will be impossible effectively to perform triage on the population at risk. That is, within that population, there will be no realistic means of identifying and sorting out those who have had minimal radiation exposure and will recover without any medical intervention, those who have had moderate radiation exposure and will survive at given levels of medical intervention, and those who have suffered lethal radiation doses and will die whether or not medical intervention is carried out.

Unless the entire population had been wearing dosimeters, there will be no way for any individual--or any physician or health worker examining that individual--to determine either the whole-body dose or the bone-marrow dose that individual has received. Determinations will initially have to be made on the basis of symptoms--but the early symptoms of mild, moderate and lethal radiation exposures are identical: nausea, vomiting and diarrhea. (Those with

population at risk seeks medical care, the medical care system (hospitals, health centers, clinics, and the private offices of physicians and other health workers) would, under the best of circumstances, be overwhelmed. This would be true even in the areas with the highest concentrations of such resources, for they are also the areas of highest population concentrations. In major metropolitan areas like New York City, medical disaster plans have been drawn up in an attempt to rationalize the response to major disasters. But these assume that most of the sources of medical care are themselves safe and unaffected by the risk. They assume that hospital staffs (like other essential workers such as bus drivers, police, fire department or power plant personnel) will remain at work despite perceived threats to their own safety or that of their immediate families. These assumptions would not hold for a major radiological emergency in which the metropolitan area itself was threatened--or perceived as being threatened. To our knowledge, no realistic medical disaster response plan has been drawn up for medical care sources in New York City or its surrounding suburban areas to meet a threat of this type.

Even if we assumed that such a disaster plan were in place and were operative, and that effective triage were possible, the numbers of people suffering exposures sufficient to require active medical care would overwhelm the resources of the medical care system. Furthermore, for the

rationally are unjustified. Even if such assumptions are made, the probability exists that the system will be overwhelmed by the numbers of people seeking care.

SEPTEMBER 1982

CURRICULUM VITAE

H. JACK GEIGER, M.D., M. SCI. HYG.

ARTHUR C. LOGAN PROFESSOR OF COMMUNITY MEDICINE

School of Biomedical Education
City College of New York
138th Street and Convent Avenue
New York, New York 10031

Home Address

60 Riverside Drive
New York, New York 10024

Arthur C. Logan Professor of Community Medicine and Director, Program in Health Medicine and Society, School of Biomedical Education, City College of New York.

American Public Health Association Medical Care Section Council, APHA Committee on Health Services Research; APHA Committee on Public Participation in Health Services; APHA Task Force on Latin American Health.

Institute of Medicine, National Academy of Sciences, Steering Committee, Study on Integration of Federally Funded Health Services.

Institute of Medicine, National Academy of Sciences, Planning Committee, Conference on "Behavioral Perspectives on Health Risks Among the Disadvantaged".

Institute of Medicine, National Academy of Sciences, Planning Committee, Conference on "Community-Oriented Primary Care".

New York State Health Advisory Council, Task Force on Primary Care, Albany, New York.

Health Systems Agency of New York City: Ambulatory and Acute Care Task Force.

New York Academy of Medicine, Committee on Medicine in Society, New York, New York.

American College of Preventive Medicine, Committee on International Health.

National Association of Community Health Centers, Committee on Health Policy, Washington, D.C.

National Medical Fellowships, Board of Trustees and Chairman, Program Review Committee, New York, New York

Physicians for Social Responsibility, Board of Directors, National Advisory Board, Chairperson, National Policy Committee.

International Physicians for the Prevention of Nuclear War, Board of Directors, Boston, Massachusetts.

National Self-Help Clearing House, Board of Advisors, New York, New York.

National Coalition to Save Public General Hospitals, Executive Committee, Chicago, Illinois.

Council for the Advancement of Science Writing, Board of Directors, Evanston, Illinois.

Harlem Hospital, Board of Advisors, Physician's Assistant Training Program, New York.

Lecturer on Community Medicine, Department of Sociomedical Sciences, Boston University School of Medicine, Boston, Massachusetts.

Associate, Columbia University Seminar on Social and Preventive Medicine, New York.

Consultant on Curriculum, Graduate Program in Health Policy and Management, and Cooperative Health Improvement Program, Harvard School of Public Health, Boston, Massachusetts.

American Medical Student Association, Professional Advisory Committee, Health Watch Documentation Project, Chantilly, Virginia.

PERSONAL DATA

Date of Birth: November 11, 1925
New York, New York

EDUCATION

1941 - 43 University of Wisconsin, Liberal Arts.
1947 - 50 University of Chicago, Division of Biological Sciences.
1954 - 58 Western Reserve University School of Medicine, Cleveland, Ohio
M.D. degree, June 1958.
1959 - 60 Harvard School of Public Health, Boston, Massachusetts,
M. Sci. Hvg. (Epidemiology) degree, June 1960.

CLINICAL TRAINING

1958 - 59 Intern, II and IV (Harvard) Medical Service, Boston City Hospital,
Boston, Massachusetts.
1962 - 63 Assistant Resident in Medicine, II and IV (Harvard) Medical Service,
Boston City Hospital, Boston, Massachusetts.
1963 - 64 Senior Resident in Medicine, II and IV (Harvard) Medical Service,
Boston City Hospital, Boston, Massachusetts, and Research Fellow,
Thorndike and Channing Laboratories, Harvard Medical School.
1964 - 65 Clinical Assistant in Medicine, II and IV (Harvard) Medical Service,
Boston City Hospital, Boston, Massachusetts.
1965 - 66 Clinical Associate in Medicine, II and IV (Harvard) Medical Service,
Boston City Hospital, Boston, Massachusetts.

- 1959 - 61 Research Fellow, Department of Preventive Medicine, Harvard Medical School; Joint appointment as Postdoctoral Research Fellow, Joint Training Program in Social Science and Medicine, Department of Social Relations, Harvard University.
- 1961 - 62 Instructor in Preventive Medicine, Harvard Medical School; Clinical Assistant in Medicine, Harvard Medical Service, Boston City Hospital; Chief Consultant, NIMH-Harvard School of Public Health Cross-Cultural Survey of Social Factors in the Etiology of Disease.
- 1964 - 65 Assistant Professor of Public Health, Harvard School of Public Health; Clinical Assistant in Medicine, Harvard Medical Service, Boston City Hospital.
- 1965 - 66 Associate Professor of Preventive Medicine, Tufts University School of Medicine, Boston, Massachusetts; Clinical Associate in Medicine, Harvard Medical Service, Boston City Hospital.
- 1965 - 71 Project Co-Director (1965-68) and Project Director (1968-71), Tufts Comprehensive Community Health Action Program; Project Director (1965-71) Tufts Delta-Mississippi Health Center; Project Co-Director (1965-69) and Project Director (1969-71), Tufts Columbia Point-Boston Health Center.
- 1966 - 69 Professor of Preventive Medicine and Director, Division of Community Health, Department of Preventive Medicine, Tufts University School of Medicine.
- 1969 - 71 Professor and Chairman, Department of Community Health and Social Medicine, Tufts University School of Medicine and Chairman, Ambulatory Care, Tufts-New England Medical Center.
- 1971 - 73 Professor and Chairman, Department of Community Medicine, School of Medicine, State University of New York at Stony Brook, New York; (on leave, 1972-73); Lecturer on Medicine, Harvard Medical School.
- 1972 - 73 Visiting Professor of Medicine, Harvard Medical School, Boston, Massachusetts.
- 1973 - 77 Professor of Community Medicine, School of Medicine, State University of New York at Stony Brook, New York; resumed Departmental Chairmanship, 1976.
- 1978 - Arthur C. Logan Professor of Community Medicine and Director, Program in Health, Medicine and Society, School of Biomedical Education, The City College of New York, City University of New York.

PROFESSIONAL MEMBERSHIPS

American Public Health Association (Fellow)
American College of Preventive Medicine
American Association for the Advancement of Science (Fellow)
International Epidemiological Association
Association of Teachers of Preventive Medicine
Scientists' Institute for Public Information (Fellow)
Association for the Behavioral Sciences and Medical Education
New York Academy of Medicine (Fellow)

ACADEMIC AWARDS AND HONORS

Distinguished Public Service Award, National Association of Community Health Centers, for "outstanding contributions in the private and public sectors which have fostered support for community health delivery programs", 1981.

Commencement speaker, Boston University School of Medicine, Boston, Massachusetts, May 17, 1981.

National Health Achievement Award in Community Medicine, 50th Anniversary Distinguished Service Award of the Blue Cross and Blue Shield Associations, for "developing a new concept of community health care as an effective instrument of community change", 1979.

American Public Health Association, first annual APHA-Rosenhaus Foundation Award for Excellence, for "exceptionally meritorious achievement in improving the health of the American people", 1973.

Distinguished Service Award, Mississippi Association for Community Health for the Poor, 1973.

Milbank Faculty Fellowship in Social Medicine, 1966-71.

Commencement speaker, Wayne State University School of Medicine, Detroit, Michigan, May 18, 1970.

Postdoctoral Research Fellowship, National Institute of Mental Health, for studies in the Social Sciences in Medicine Program, Department of Social Sciences, Harvard University, 1959-61.

Rockefeller Foundation Training Scholarship for studies and research in social medicine, Department of Social, Family & Preventive Medicine; University of Natal Medical School, Durban, Union of South Africa, with Professor Sidney Kark, 1957.

Research Fellowship, Marine Biological Laboratory, Woods Hole, Massachusetts;
(Summers) 1955, 1956.

Kettering Foundation Fellowship, Western Reserve University School of Medicine,
1954-58.

Honors Scholarship, Biological Sciences, University of Chicago, 1948-50.

(Partial Listing)

- 1980 Seminar Co-Director, Residency Program in Social Medicine, Montefiore Hospital and Medical Center, Bronx, New York, on Training for Community-Oriented Primary Care.
- 1980 Consultant, Department of Social Medicine, Hadassah-Hebrew University School of Medicine, Jerusalem, Israel.
- 1980 Faculty Leader, American Medical Student Association Study-Tour of Health Care, People's Republic of China.
- 1980 Ad Hoc Advisory Committee to the Secretary of Health, Education and Welfare on the Structure and Mission of the Department.
- 1978 - 80 Governing Council, American Public Health Association.
- 1978 - 80 Consultant, Medical Care Quality and Organization, Division of HMO Qualification and Compliance, Office of Quality Standards, Department of Health, Education and Welfare, Rockville, Maryland.
- 1978 - 80 Consultant, Policy Research on Medically Underserved Areas, National Center for Health Services Research, Department of Health, Education and Welfare, Hyattsville, Maryland.
- 1978 - 80 Consultant, Agency for International Development/University of North Carolina School of Public Health, on Practical Training in Health Education (Cameroons).
- 1978 Faculty Leader, First American Medical Student Association Study-Tour of Health Care, People's Republic of China.
- 1975 - 78 Editorial Board, American Journal of Public Health.
- 1976 - 78 Consultant to:
National Association of Community Health Centers, Washington, D.C.

Pan American Health Organization, on health team development in community health centers, Washington, D.C.

U.S.-China Physicians Friendship Association, Washington, D.C.
- 1976 - 77 Committee on Nominations, American Association for the Advancement of Science, Washington, D.C.
- 1974 - 77 Governing Council, American Public Health Association.
- 1975 - 76 Member, Task Force on Alternatives in Health and National Development, Dag Hammarskjold Foundation, Uppsala, Sweden.
- 1974 - 79 Board of Directors, Scientists' Institute for Public Information, New York, New York.
- 1974 Member, Cuban-American Health Exchange Study-Tour of Health Care in Cuba.

- 1973 Member, China Medical Association-Ministry of Health Invitational Study-Tour of Health Care in the People's Republic of China.
- 1972 - 75 Regional Advisory Group, Nassau-Suffolk Regional Medical Program-CHP, Hapauge, Long Island, New York.
- 1971 - 73 Consultant to:
- Milbank Memorial Fund, New York, on new programs, publications and editorial policy.
 - Council on Environmental Quality, Washington, D.C., on rural health services
 - Maternal and Child Health/Family Planning Research and Training Center, Meharry Medical College, Nashville, Tennessee.
 - American Heart Association, New York, Task Force on Responsibilities in Disadvantaged Areas.
 - Institute for the Study of Health and Society, Washington, D.C. on educational programs and materials.
 - Social Policy (a journal), New York, on editorial policy.
 - University of Tennessee Medical School, Memphis, on teaching and curriculum revision in preventive and community medicine.
 - American Association of Teachers of Preventive Medicine, Committee on Social and Behavioral Sciences.
 - Editorial Board, Environment.
- 1969 - 71 The Rockefeller Foundation, New York: Member, Task Force on Rural Poverty.
- American Psychiatric Association, Washington, D.C., Member, Task Force on Research Aspects of Community Mental Health Centers.
 - White House Conference on Youth, Planning Commission, Member, Task Force on Poverty.
 - White House Conference on Food, Nutrition and Health, Universities Panel.
 - Center for the Biology of Natural Systems, Washington University, St. Louis, Consultant on rural environmental health.
- 1967 - 69 Special Advisory Committee on Health and Poverty to the Secretary of Health, Education and Welfare, Washington, D.C.
- Committee on Health Information Systems, M.I.T.-Harvard Joint Center for Urban Studies, Boston, Massachusetts.
 - Board of Directors, National Citizens Commission of Inquiry into Health Services for Americans, Washington, D.C.

CONSULTANTSHIPS, COMMISSIONS AND RELATED ACTIVITIES

Travel and study of the health care system in: Union of South Africa and Swaziland (1957); Puerto Rico (studies with Dr. John Grant) (1960); Nigeria (1963); Uganda, Tunisia (1964); Chile (Invitation of the Ministry of Health), Argentina (1968); Jamaica (1970); People's Republic of China (Invitation of the Chinese Medical Association, PRC) (1973, 1978, 1980); Cuba (Invitation of the Ministry of Health) (1974); Iran (1975); Republic of the Cameroons (1979); Israel (1980).

(Partial Listing)

- Vice-Chairman, Congress of Racial Equality (CORE), Madison, Wisconsin, 1943.
- Organizer, National Maritime Union-CIO, National Communications Association-CIO, 1944-47.
- Civil Liberties Chairman, American Veterans Committee, Chicago, 1947-50; member, Provident Medical Associates Committee on Discrimination in Medical Education, 1947-50; Vice-Chairman, Congress of Racial Equality (CORE), Chicago, 1948-50; Chicago-area Chairman, Committee to End Discrimination in the Armed Forces, 1950.
- Executive Committee, New York Local, American Newspaper Guild-CIO, 1952-54.
- Member, Special Committee on Science in the Promotion of Human Welfare, American Association for the Advancement of Science, 1957-62.
- Founding Member, Physicians for Social Responsibility, Boston, Massachusetts, 1961.
- Founding Member, Medical Committee for Human Rights (MCHR), 1964, Field Coordinator, MCHR Mississippi Program (August 1964); Member, National Program Committee (1964-67); National Program Chairman (1965).
- Consultant on Health and Human Services Policy to:
- Student Non-Violent Coordinating Committee, 1964;
 - Southern Christian Leadership Conference, 1965-68;
 - Health Service Planner, Selma-to-Montgomery march, 1965;
 - Student Health Organization, 1967-68;
 - National Urban League, 1969-70.
- Chairman, Health Committee, the Delta Ministry of the National Council of Churches, New York and Greenville, Mississippi, 1964-66; Member, Commission on the Delta Ministry, National Council of Churches, New York, 1965-68.
- Board of Governors, Institute of Current World Affairs, New York, New York, 1968-75; Chairman of the Board, 1970-71.
- Steering Committee, Emergency Committee to Save Chilean Health Workers, New York, 1974-79.
- Founding Member, International Physicians for the Prevention of Nuclear War, Boston, Massachusetts, 1980.

OTHER POSITIONS

- 1941 - 43 Reporter, Madison Capitol-Times, Madison, Wisconsin.
- 1947 - 50 News Editor, Chicago Bureau, International News Service
- 1950 - 54 Science Editor, International News Service, New York, (now United Press International); contributor to New York Times Magazine, Harper's Saturday Review and other publications; special writing projects for American Cancer Society, American Chemical Society, Sloan-Kettering Institute for Cancer Research, Lasker Foundation, etc.
- 1943 - 47 Ensign, Lieut. J.G. (Radar-Radio), U.S. Merchant Marine.

PUBLICATIONS

(A) Books:

The Training of Good Physicians: Critical Factors in Career Choices, Lyden, Fremont; Geiger, H. Jack and Peterson, Osler L.; Harvard University Press, Cambridge, MA, 1968 (A Commonwealth Fund Book).

(B) Journal Articles, Monographs and Book Chapters:

- (1) "The Social Responsibility of the Physician", Scientific Monthly, 85, 2; August 1957.

- (13) Interview on Medical Effects of Nuclear Weapons, "Tomorrow Show", NBC National Television Network, New York, October 15, 1981.

PUBLIC EDUCATION ACTIVITIES (continued)

- (14) Discussion and interview on Civil Defense, "Common Ground", National Public Radio Network, September 23, 1981.
- (15) Interview on Effects of Nuclear Weapons, CBS Television Series, "The Defense of America", Part One, June 14, 1981.
- (16) Interviews on Nuclear War and Civil Defense, WOR-TV, New York, March 25, 1982 and May 19, 1981.

- 1949 - 50 Student research project with Dr. Nathaniel Kleitman, Department of Physiology, University of Chicago Medical School, on the physiology of sleep and fatigue.

- 1954 - 55 Student research project, "Mechanism of Metastasis in the Ehrlich Ascites Tumor", with Dr. E. E. Ecker, Institute of Pathology, Western Reserve University.

- 1955 - 56 (Summer) Marine Biological Laboratory, Woods Hole, Massachusetts, "Comparative Studies in Hemolysis of Human Erythrocytes", with Dr. A.K. Parpart, Department of Biology, Princeton University.

- 1956 - 58 M.D. thesis project, "Medical Education and Cultural Determinants of Health and Illness", with Dr. T. Hale Ham, Division of Medical Education, School of Medicine, Western Reserve University.

- 1957 Studies in social and medical pathology and culture change in urban and rural Zulu populations, with Dr. Sidney Kark, Professor of Social Medicine, University of Natal Medical School, Durban, Union of South Africa, at the Lamontville and Pholela Health Centers.

- 1959 - 62 Research in the Department of Preventive Medicine, Harvard Medical School: (1) Studies in Physician-Patient Relationships: The Choice and Use of Physicians by Families; (2) Determinants of the Quality of Medical Performance by Physicians; (3) Determinants of Choice of Career and Hospital Training by Physicians, with Dr. Osler Peterson, Visiting Professor of Professor of Preventive Medicine; (4) Studies of the Effects of Nuclear Weapons and Medical Responses to Nuclear Attack.

- 1960 - 62 (Part-time) Chief Consultant, NIMH-Harvard School of Public Health Cross-Cultural Survey of Social Factors in the Etiology of Disease (Hypertension, Rheumatoid Arthritis, Schizophrenia).

- 1963 - 64 Development of a Portable Electronic Device for Recording Blood Pressure in Epidemiologic Surveys, with Dr. Edward H. Kass, Harvard Medical School, and Professor Eric Mollo-Christenson, M.I.T.

- 1965 - 71 (1) Proposed the Neighborhood Health Center program to the Office of Economic Opportunity; designed and implemented the first OEO health center grants (for programs in urban Boston and rural Mississippi);

 (2) Assisted in drafting amendments to the Economic Opportunity Act (1966) creating the OEO Office of Health Affairs and authorizing and funding the national neighborhood health center network; Consultant to the Director, OEO, the Assistant Secretary for Health, H.E.W., and the Subcommittee on Health, U.S. Senate, on regulations, implementation and policy;

 (3) Planned, budgeted and directed an urban community health center with an annual budget of \$1.8 million and a staff of approximately 100, and a rural community health center with a budget of \$3.5 million, a staff of more than 200, and major program components in medical care, nutrition, environmental sanitation, community organization, health education, and health careers training;

(4) Designed and supervised evaluation research on: medical care utilization by poverty populations; impact of health centers on medical care utilization and on other providers of care; change in health attitudes, knowledge, behaviors and hospital utilization by inner-city and rural low-income populations; community organization in urban and rural populations; health team development and use of paraprofessionals in primary care;

(5) Designed and supervised pre-clinical and clinical clerkships and related teaching programs in community medicine at urban and rural health center sites for students in medicine, public health, social work, environmental engineering, law and urban planning;

(6) Initiated and shared academic direction of a special program at Tufts University School of Medicine for the recruitment, selection, and academic support of severely educationally disadvantaged rural and inner-city medical students;

(7) Initiated, funded (from governmental and foundation sources), and directed health center programs in which more than 90 local disadvantaged minority students received academic support, remediation, assistance and placement in programs ranging from high school equivalency certification, L.P.N. certification, Registered Sanitarian and other technical certifications, to successful completion of baccalaureate, R.N., law, M.D., M.S.W. and Ph.D. degrees.

1971 - 77

Initiated and chaired (1971-73, 1976-77) a Department of Community Medicine, with 14 faculty lines, at a new medical school; responsible for the development of community medicine courses and programs and for community medicine teaching in other schools of the Health Sciences Center; assisted in the planning and development of a university-related suburban Health Maintenance Organization, and in the planning of ambulatory care for a new university teaching hospital; Executive Committee, Curriculum Committee, Admissions Committee, School of Medicine, State University of New York at Stony Brook.

1978

Director of a program (equivalent to a department) in community medicine, with 9 full-time, 5 part-time and more than 20 adjunct faculty lines and annual budget of approximately \$500,000, in a unique 6-year medical school oriented toward urban primary care. Administratively responsible for development of Primary Care Clinical Campuses and field teaching at more than 50 community sites, as well as for community medicine teaching over four years of the curriculum. Executive Committee, Admissions Committee, Task Force on Curriculum Revision (Chairperson), Curriculum Committee, Academic Steering Committee, School of Biomedical Education, City College of New York.

VICTOR W. SIDEL, M.D.

Chairperson, Department of Social Medicine
Montefiore Medical Center

Professor of Community Health
Chairperson, Department of Community Health (West Campus)
Albert Einstein College of Medicine

Mailing Address: Department of Social Medicine, Montefiore Medical Center
111 East 210th St., Bronx, NY 10467, 212-920-5508

Education: Princeton University, A.B. cum laude (physics) 1949-1953

Harvard University, M.D. with honors in a
special field (biophysics) 1953-1957

London School of Hygiene and Tropical Medicine
(Combined Course in Epidemiology and
Medical Statistics) 1967-1968

Training and Professional Peter Bent Brigham Hospital, Boston, Mass.
Intern in Medicine 1957-1958

Appointments: Junior Assistant Resident in Medicine 1958-1959

National Institutes of Health, Bethesda,
Maryland
Clinical Associate, National Heart Institute
and Senior Assistant Surgeon, U.S. Public
Health Service 1959-1961

Assistant in Medicine, George Washington
University School of Medicine 1960-1961

Peter Bent Brigham Hospital
Senior Assistant Resident in Medicine 1961-1962

Biophysical Laboratory, Harvard Medical School,
Boston
Instructor in Biophysics, Harvard University 1962-1964
Advanced Research Fellow, American Heart
Association 1962-1964

Junior Associate in Medicine, Peter Bent
Brigham Hospital 1962-1966

Consulting Physician in Medicine (Child
Health Division) and Internist, Family
Health Care Program, Children's Hospital
Medical Center 1963-1966

Member, Massachusetts Commission on Radiation
Protection 1963-1964

Chief, Preventive Medicine Unit	1964-1967
Associate in Preventive Medicine, Harvard Medical School	1964-1967
Course in Epidemiology, National Communicable Disease Center, Atlanta, Georgia	1964
Courses in Biostatistics and in Medical Care Administration, Harvard School of Public Health	1964-1965
Research Fellow, Medical Foundation	1964-1968
Faculty Fellow, Milbank Memorial Fund	1964-1971
Executive Secretary, Utilization Review Committee, MGH	1967-1969
Study Year in the U.S.S.R., Great Britain, and Scandinavia	1967-1968
U.S.-U.S.S.R. Health Exchange Visitor	
Combined Course in Epidemiology and Medical Statistics, London School of Hygiene and Tropical Medicine	
Courses in Social Policy, London School of Economics and Political Science	
Research Project and Seminars, Social Research Unit, Bedford College, University of London	
Massachusetts General Hospital, Boston	1968-1969
Chief, Community Medicine Unit	
Assistant Professor of Medicine, Harvard Medical School	
Member, Center for Community Health and Medical Care, Harvard Medical School and Harvard School of Public Health	
Montefiore Hospital and Medical Center and Albert Einstein College of Medicine, Bronx, N.Y.	
Chairman, Dept. of Social Medicine, MHMC	1969-
Professor, Community Health (Social Medicine), AECOM	1969-
Consulting Physician, Department of Social Medicine, Morrisania City Hospital	1969-1976
Associate, University Seminar on Social and Preventive Medicine, Columbia University	1970-
Chairperson, Ambulatory Medical Care Audit Committee, MHMC	1971-
Chairperson, Institutional Review Board for Protection of Human Subjects, MHMC	1972-
Visiting faculty member, Program in Health, Medicine and Society and Department of Community Health and Social Medicine, School of Biomedical Education, City College, City University of New York	1973-
Honorary Attending Physician, Department of Ambulatory Care, North Central Bronx Hospital	1976-
