Subject: Revision to Generic Licensing Topical Report
EDR-I (NP)-A Ederer's Nuclear Safety Related
eXtra-Safety And Monitoring (X-SAM) Cranes,
Submittal of Non-Proprietary Copies of Accepted Report

Dear Mr. Thomas:

Our letter of October 8, 1982, submitted Revision 3 of Generic Licensing Topical Report EDR-I for NRC approval. Amendment 1 to Revision 3 was submitted by our letter of January 18, 1983, Amendment 2 to Revision 3 was submitted by our letter May 27, 1983, and our letter dated July 18, 1983, identified additional changes that would be made to revision 3 following NRC acceptance.

Your letter of August 26, 1983, accepted EDR-I Revision 3, as amended, subject to incorporation of the changes identified in our July 18, 1983, letter. We were requested to issue the revised versions of the proprietary and non-proprietary reports within three months of receipt of the letter. Our letter of November 23, 1983 submitted 22 copies of the proprietary report.

The purpose of this letter is to submit 12 copies of EDR-I (NP)-A, the non-proprietary version, as required by NUREG-0390. This letter also includes a corrected page III.C-1 that should be inserted in the proprietary copies of the report. Through a printing error, two lines were left off the bottom of this page in the proprietary version that was submitted previously.

Please do not hesitate to contact us if you have any questions regarding this letter or its attachments.

Very truly yours,

Ederer Incorporated

C. William Clark, Jr.
Director of Engineering
