MEMORANDUM FOR: Albert Schwencer, Chief
Licensing Branch No. 2, DL

FROM: Frank J. Congel, Chief
Radiological Assessment Branch, OSI

SUBJECT: DISPOSITION OF RADIATION EXPOSURE RECORDS - WPPSS

The Radiological Assessment Branch has reviewed the subject letter from Bauchey to Eisenhower dated 1/19/83. This letter requests authorization to dispose of the records of previous employers of WPPSS personnel which are utilized in preparing their current NRC-4 forms (i.e., 10 CFR 20.102(c)(2)). It is our recommendation that the period of time for retention of these records be not less than one year after which time the licensee may dispose of them as he sees fit (see similar recommendation for Farley; Murphy to Varga, 12/22/80).

This review was performed by C. Hinson, RPS, RAB.
