

OCT 2 1968

Mr. Robert E. Philleo  
Office of the Chief of Engineers  
Room 1026, Building T-7  
Washington, D. C. 20315

Dear Mr. Philleo:

Thank you for your prompt response in reviewing the concrete honey-combing problem experienced at Turkey Point Unit 3. Your comments are being utilized by our Division of Reactor Licensing in their final evaluation.

I wish to commend you for the efficient and professional manner in which you carried out the assignment. We will be pleased to call upon you in the future should a further need arise.

Sincerely yours,

Original Signed by  
G. W. Reinmuth
