November 30, 1983

Docket No. STN-50-601

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

SUBJECT: Westinghouse Advanced Pressurized Water Reactor (WAPWR) Reference  
Safety Analysis Report, RESAR SP/90, PDA Module 2, "Regulatory  
Conformance"

REF: 1. Westinghouse letter (NS-EPR-2675) dated November 1, 1983,  
E. P. Rahe, Jr. to F. Miraglia

Dear Mr. Denton:

Enclosed are:

1. Forty-one (41) copies of a Westinghouse document entitled, "Westinghouse Advanced Pressurized Water Reactor RESAR SP/90, PDA Module 2, Regulatory Conformance" (Proprietary).
2. Four (4) copies of a Westinghouse document entitled, "Westinghouse Advanced Pressurized Water Reactor RESAR SP/90, PDA Module 2, Regulatory Conformance" (Non-Proprietary).
3. One (1) copy of an Application for Withholding Proprietary Information From Public Disclosure, AW-83-109 (Non-Proprietary).
4. One (1) copy of an original affidavit, AW-82-57 (Non-Proprietary).

The enclosed document; WAPWR RESAR SP/90, PDA Module 2, "Regulatory Conformance"; is the second in a series of modular PDA documents planned for submittal over the next thirteen months. The number of copies submitted were agreed to via discussion with the NRC Special Projects Branch (Mr. G. C. Meyer).

This Regulatory Conformance module is an updated version of the "Licensing Control Document" submitted via reference 1. It has been prepared to ensure that both current and anticipated licensing requirements and guidance are considered as an integral part of the WAPWR design in response to new or potential future licensing requirements, and indicates Westinghouse design, analysis/evaluation, and licensing documentation intentions for the WAPWR.

Westinghouse requests that the NRC staff review this document from the standpoint of (1) completeness in addressing new or potential future licensing requirements, and (2) adequacy of the Westinghouse interpretation and response to these licensing requirements.

This submittal contains proprietary information of Westinghouse Electric Corporation. In conformance with the requirements of 10CFR 2.790, as amended, of the Commission's regulations, we are enclosing with this submittal an application for withholding proprietary information from public disclosure and an affidavit. The affidavit sets forth the basis on which the information may be withheld from public disclosure by the Commission.

Correspondence with respect to the affidavit or application for withholding should reference AW-83-109 and should be addressed to R. A. Wiesemann, Manager of Regulatory and Legislative Affairs, Westinghouse Electric Corporation, P.O. Box 355, Pittsburgh, Pennsylvania 15230.

Very truly yours,

E. P. Rahe, Jr., Manager  
Nuclear Safety Department
