RE: CONSULTANT'S RECOMMENDATIONS ON COURSE OF ACTION TO BE TAKEN FOR REPAIR OF SAFE ENDS AT NINE MILE POINT AND DRESDEN 2

X

The enclosed memorandum from our metallurgical consultant, Dr. R. W. Staehle, providing his recommendations for a course of action to be taken for the repair of safe ends on the Nine Mile Point and Dresden 2 reactor vessels, is forwarded for information and to keep you abreast of developments with regard to this important problem. It should be emphasized that the recommendations are those of Dr. Staehle and no regulatory position has been taken as yet with respect to this problem.
