Georgia Institute of Technology
Atlanta, GA

Docket No. 50-160
License No. R-97

During an NRC inspection conducted on May 3, 8 and 12, 1995, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violation is listed below:

10 CFR 74.13(a)(1) states that the licensee must compile a material status report on DOE/NRC Form 742 as of March 31 and September 30 of each year and submit this report no later than 30 days after the end of the period covered by the report.

Contrary to the above, for the inventory periods of April 1, 1993 - September 30, 1993; October 1, 1993 - March 31, 1993; and October 1, 1994 - March 31, 1995 the licensee failed to submit material status reports within 30 days. In addition, licensee Procedure 3600, "Special Nuclear Materials Inventory," Revision 2, dated May 9, 1991 was incomplete in that the 30 day time period required by 10 CFR.13(a)(1) was not acknowledged.

This is a Severity Level V violation (Supplement III).

Pursuant to the provisions of 10 CFR 2.201, Georgia Institute of Technology is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region II, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.
