

AUG 20 1973

D. J. Skovholt, Assistant Director for Operating Reactors, L

MILLSTONE UNIT 1, FEEDWATER SPARGER TEST DATA

In keeping with our August 14 memorandum relative to lead responsibility on the Millstone, Unit 1 feedwater sparger problem, we are forwarding a letter report (Attachment) received from our Region I Office.

You will note the report contains proprietary data covering vibration measurements of the installed spargers which may be helpful to you in your evaluations of this problem.
