Subject: Cooper Nuclear Station Safeguards Plan;  
Report of Change - Revision Twenty-Seven  
Docket No. 50-298/DPR-46

Gentlemen:

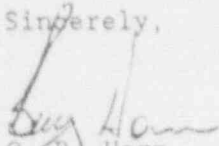

Nebraska Public Power District is submitting, in accordance with the provisions of 10 CFR Part 50.54(p), a Report of Change - Revision 27 to the Cooper Nuclear Station Safeguards Plan.

These changes reflect the modified shotgun qualification course now prevalent in the industry and changes the equipment available for a security officer's unarmed defense posture from the PC-24 baton to the more practical and effective pepper mace.

The District has concluded that the enclosed change does not decrease the effectiveness of the security plan.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited. Therefore, we request the material to be withheld from public disclosure.

Sincerely,

  
G. R. Horn  
Nuclear Power
