

Licensee Performance Review (LPR)

URENCO USA
Eunice, NM

March 30, 2020

Agenda

- **NRC – Introductions**
- **NRC – Mission**
- **NRC – LPR Process**
- **NRC – Current Performance and LPR Results**
- **URENCO USA – Response to NRC Review**
- **NRC – Public Question and Answer Session**
- **NRC – Closing Remarks**

NRC's Mission

The NRC licenses and regulates the Nation's civilian use of radioactive materials to protect public health and safety, promote the common defense and security, and protect the environment.

LPR Process

- **Review enforcement actions issued during the assessment period to assess safety and security performance.**
- **Identify areas needing improvement (ANIs) and assess licensee actions for open ANI's.**
- **Identify areas requiring additional regulatory oversight.**
- **Communicate results and planned actions to the licensee and the public.**

LPR Process (continued)

Performance Areas

- Safety Operations
- Safeguards
- Radiological Controls
- Facility Support
- Other Areas

Current Performance

Assessment Period

January 1, 2018 – December 31, 2019

URENCO USA Current LPR

(Inspection Effort)

Inspection Area	Hours (last 2 years)
• Operational Safety	117
• Nuclear Criticality Safety	117
• Fire Protection	113
• Material Control & Accountability	140
• Physical Protection	16
• Information Security	40
• Radiation Protection	57
• Effluent Control and Environmental Protection	57
• Radioactive Waste Management	29
• Transportation	26
• Maintenance and Surveillance	63
• Emergency Preparedness	54
• Evaluation of Exercises and Drills	48
• Plant Modifications	122
• Corrective Action Program	85
Total	1084

LPR Results

- **URENCO, Inc. continues to conduct licensed activities safely and securely; protecting public health and the environment.**
- **URENCO, Inc. has established satisfactory performance. No areas needing improvement were identified.**

NRC Response

NRC Inspections in 2020: NRC Core inspection program [IMC 2600 Appendix B]

Smarter Inspection Program

- Included all areas of safety and safeguards as referenced in IMC 2600 and IMC 2683
- Excluded, physical protection, classified material and information security
- Stakeholder engagement
 - Held 9 public meetings
 - Proactive engagement with stakeholders
 - Received multiple letters from NEI and UUSA

NRC Response to

- Mission Critical Functions
 - Monitoring plant activities remotely through inspections and oversight
 - Maintaining emergency response capabilities with Regional IRCs and HQ
 - Limiting and risk-informing on-site inspections for region-based inspectors

NRC Response to

- Additional Actions
 - Expanded use of telework
 - Ongoing Review of Continuity of Operations Plan
 - Coordinating actions with industry to minimize inspection schedule impacts while protecting inspectors and plant staff

Getting in Touch with the NRC

- Website – www.nrc.gov
- Questions/Information – OPA2.Resource@nrc.gov or 404-997-4417
- Allegations – 1-800-695-7403
