

**Wisconsin Electric** POWER COMPANY  
231 WEST MICHIGAN, MILWAUKEE, WISCONSIN 53201

- October 8, 1974

Mr. Edson Case, Acting Director  
Directorate of Licensing  
Office of Regulation  
U. S. Atomic Energy Commission  
Washington, D. C. 20545

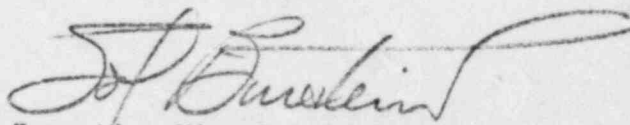

Dear Mr. Case:

DOCKET NOS. 50-266 AND 50-301  
CORRECTION TO LETTER OF AUGUST 30, 1974  
ON UNSCHEDULED RADIOACTIVITY RELEASE  
POINT BEACH NUCLEAR PLANT, UNIT NOS. 1 AND 2

One of our letters to you dated August 30, 1974 reported the details of an abnormal occurrence concerning an unscheduled radioactivity release from the blowdown evaporator at the Point Beach Nuclear Plant. On page 2, paragraph 2, the letter, after explaining that such releases are expected to be extremely infrequent events, went on to say that "...indeed, none has been experienced to date". This statement is incorrect. Although the root cause was different, an unscheduled, unmonitored release was made via the blowdown evaporator relief valves on May 12, 1973. This incident was reported in my letter to Mr. John F. O'Leary dated May 28, 1973.

We trust this mistake has caused you no inconvenience.

Very truly yours,

  
Executive Vice President

Sol Burstein
