MEMO

MEMORANDUM FOR: S. S. Pawlicki, Chief
Materials Engineering Branch
Division of Engineering

FROM: C. D. Sellers,
Materials Engineering Branch
Division of Engineering

THRU:q W. S. Hazelton, Section Leader
Materials Application Section
Materials Engineering Branch
Division of Engineering

SUBJECT: A/1 F03050080, MIDLAND BOLT PROBLEM

In response to your request, I attempted unsuccessfully to contact Mr. W. W. Reinmuth to discuss his memo to G. Fiorelli dated July 15, 1980, concerning bolting problems and proposed bolting Regulatory Guides. Mr. Jim Henderson subsequently contacted me on this subject and apprised me that the draft Regulatory Guide would be available for NRR review in "a couple of years".
