MEMORANDUM FOR: Those on Attached List

FROM: Darl S. Hood, Project Manager
Licensing Branch #4
Division of Licensing

SUBJECT: MONTHLY PROJECT MEETING NOTIFICATION - MIDLAND
UNITS 1 & 2

In accordance with D. G. Eisenhut's memo of June 24, 1981, monthly project meetings are held by the Division of Licensing for certain plants with active OL applications. The third such meeting for the Midland facility will be held on Friday, September 18, 1981, at 10:30 AM in conference room P-114.

The purpose of these meetings is to provide overall project coordination on schedules, technical issues and status, review of interfaces and early identification of problem areas.

Each reviewer assigned to Midland 1/2 or the cognizant section leader is requested to attend this meeting. Following the meeting, a summary report on the results of this meeting will be issued by this office. The attached status sheet and reviewer input sheet are intended to assist you in preparation for the meeting. Please be prepared to turn in the "Reviewer Input Sheet" with the appropriate sections filled in at the conclusion of the meeting.

Please note that the most recent Bevill Report (issued on August 28) shows an SER issue date of May 6, 1982, two months earlier than the previous Bevill Report. The SER date for Seabrook was changed from 06/07/82 to 09/07/82 in order to accommodate the accelerated schedule for Midland. Your input should reflect those changes.
