MEMORANDUM FOR: Elinor G. Adensam, Chief  
Licensing Branch No. 4  
Division of Licensing

FROM: George Lear, Chief  
Hydrologic and Geotechnical Engineering Branch  
Division of Engineering

SUBJECT: TRANSMITTAL OF CONSULTANT'S TESTIMONY -  
GEOTECHNICAL ENGINEERING

Plant Name: Midland Plants, Units 1 and 2  
Licensing Stage: Post CP  
Docket Numbers: 50-329/330  
Responsible Branch: LB No. 4, D. Hood, LPM

The enclosed transmittal letters (dated November 23, 1981 and December 8, 1981) with enclosures have been received from our consultant, the U.S. Army Corps of Engineers, and are forwarded to DL for docketing.

The enclosures provide the testimony of H. Singh for the Diesel Generator Building, Service Water Pump Structure and Auxiliary Building and the testimony of W. Otto for the Diesel Generator Building.

No further action, other than docketing, is required of DL because the submitted Corps of Engineers (COE) testimony will be coordinated with NRC Staff testimony by GES and a composite COE-NRC testimony will be prepared for ultimate submittal to OELD to meet the scheduled ASLB hearing sessions.

MEMO  
4

Original signed by George Lear

George Lear, Chief  
Hydrologic and Geotechnical  
Engineering Branch  
Division of Engineering
