In the Matter of
Philadelphia Electric Company
(Limerick Generating Station, Units 1 and 2)
Docket Nos. 50-352 and 50-353 OL

Dear Ms. Mulligan:

This letter follows up our second telephone conversation yesterday regarding Philadelphia Electric Company's objections to your first set of discovery relating to the offsite emergency planning contentions. I understand that you agreed that as to Interrogatory 24 the objection to responding to the portion dealing with "other emergency workers" was not a major problem, however, you could not take a final position until you reviewed the response. With regard to Interrogatory No. 26, the Company has considered your suggested substitution of the phrase "any other individual providing back-up assistance" for the word "volunteers," but believes that the substituted phrase is equally objectionable.

I would be happy to discuss these matters again after you have reviewed our responses.

Sincerely,

Mark Wetterhahn
