Subject: Supplemental Response to Inspection Report 50-298/83-28

Dear Mr. Johnson:

Reference 3 set forth four (4) questions, the first being "who is performing the psychological examinations of guards prior to their assignment to the security guard force?" Mr. Ken Golden, who is in charge of polygraph and pre-employment screening for PER MAR Security and Research Corporation of Davenport, Iowa, performs this testing. He is a licensed representative of Psychological System Corporation of Oak Brook, Illinois.

Your second question stated "who is performing the subsequent requalification examinations?" The subsequent requalification examinations are being performed by a licensed physician or physician's assistant.

Your third question was "state also the psychological areas being measured." The psychological System Corporation Personnel Security Preview includes a Past Trustworthiness Survey which measures past social and honesty performance and an Emotional Status Survey which surveys emotional stability, control and psychosomatic problems.

Your fourth question requested that we state "the methods of measurement which meet your commitment to ANSI N18.17-1973, Section 4.3(2)."

The methods of measurement are the "scores" derived from the applicant's written answers to the tests as compared to the norms which have been validated by the author of the tests.

If you have any questions regarding this response, please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Jay M. Pilant".

Jay M. Pilant
Manager, Technical Staff
Nuclear Power Group
