MEMORANDUM FOR: Nuclear Document System
Office of Administration

FROM: Paul Norian, Section Leader
Reactor and Plant Safety Issues Branch
Division of Safety Issue Resolution
Office of Nuclear Regulatory Research

SUBJECT: REVISED DESIGNATION FOR REGULATORY HISTORY
- NUCLEAR POWER PLANT LICENSE RENEWAL (55 FR 29043 AND
56 FR 64943)
- 10 CFR PARTS 2, 50, 54, AND 140
- RIN 3150 - AD04

Reference: (1) Memorandum from P. Norian to NUDOCS, "Regulatory
History - Nuclear Power Plant License Renewal,"
February 13, 1992

A compilation of documents that are of central relevance to the nuclear power plant license renewal rulemaking was sent to NUDOCS as specified in Reference (1). This compilation included documents relevant to both the proposed rule and the final rule, and all documents were marked with the designator "AD04-2". Subsequently, I was informed by the NUDOCS' contractor that documents relevant to the proposed rule should be marked "AD04-1", and that documents relevant to the final rule should be marked "AD04-2". Thus, the documents for the proposed and final rules should be identified as follows:

- o proposed rule: AD04-1, 55 FR 29043, 10 CFR Parts 2, 50, and 54
- o final rule: AD04-2, 56 FR 64943, 10 CFR Parts 2, 50, 54, and 140

The documents for the proposed rule have been re-marked with the designator "AD04-1". The revised designation for the various groups of documents is indicated in the attachment. If you have any question, please call me on 492-3910.
