President and Chief Executive Officer  
P.O. Box 411  
Burlington, Kansas 66839

Gentlemen:

SUBJECT: DEVELOPMENT OF REQUALIFICATION EXAMINATIONS

Over the past year, various Region IV facility licensee training staffs have requested to meet with regional license examiners to discuss development of various portions of requalification examinations. In response to continued requests of this nature, the Region IV Operator Licensing Section has scheduled a 1-day meeting with all Region IV facility licensees on March 24, 1992, to discuss requalification examinations. While the meeting is focused principally at individuals who develop examination material, all interested individuals are invited to attend. The meeting provides an opportunity for more efficient interaction among the Region IV staff and facility licensee personnel and promotes increased consistency within the region for requalification examinations. The official meeting times are from 9:30 a.m. to 3:30 p.m. However, the Operator Licensing staff will be available from 8:00 a.m. to 4:00 p.m. for additional discussions or questions. After a brief review of the requirements for the content and format of tests items used for NRC administered requalification examinations, the majority of the time will be reserved to respond to specific questions concerning the construction and content of various test items.

If you plan to participate or have any questions, please call John Pellet, Chief, Operator Licensing Section, at (817) 860-8159.

Sincerely,

A. Bill Beach, Director  
Division of Reactor Projects
