## SUMMARY OF SALP MEETING WITH THE LICENSEE ON MAY 31, 1984 IN DEWITT, ILLINOIS

The findings and conclusions of the SALP Board documented in Report No. 50-461/84-03 were discussed with the licensee on May 31, 1984, at the Clinton Nuclear Station Visitor's Center, DeWitt, Illinois. The licensee's regulatory performance was presented in each functional area. Overall performance and performance in each functional area was found acceptable. Particular note was made of the improved performance in Quality Assurance, Support Systems, and Electrical Power Distribution, and the overall progress that the company had made toward turning around its performance.

While this meeting was primarily a discussion between the licensee and NRC, it was open to members of the public as observers. The meeting was well attended with extensive television and news media coverage.

The following licensee and NRC personnel were in attendance on May 31, 1984:

### Illinois Power Company

W. J. Kelley, President and Chairman of the Board  
W. C. Gerstner, Executive Vice President  
D. P. Hall, Vice President  
H. E. Daniels, Jr., Project Manager
