Dear Mr. Dluzniewski:

During our telephone conversation on April 19, 1983, you requested information regarding the steam generator tube rupture which occurred at the R. E. Ginna Nuclear Power Plant on January 25, 1982.

Enclosed is a copy of the U.S. Nuclear Regulatory Commission (NRC) report, Safety Evaluation Report Related to the Restart of the R. E. Ginna Nuclear Power Plant, NUREG-0916. This report describes the tube rupture and the NRC's evaluation of it.

Sincerely,

Original signed by
