Re: Catawba Nuclear Station  
Docket Nos. 50-413 and 50-414

Dear Mr. Denton:

In response to Mr. T. M. Novak's letter of May 25, 1984 which transmitted the "Draft" Catawba Unit 1 Technical Specifications, Duke certified in my July 3, 1984 letter that the specifications as revised by your letters of June 8 and 22, 1984 accurately reflected the as-built plant. A subsequent letter dated July 17, 1984 transmitted a number of revised specifications.

Based on the extensive preparation and review effort that has gone into the development of the Catawba Unit 1 Technical Specifications, Duke Power Company certifies that, to the best of our knowledge, the "Draft" Catawba Unit 1 Technical Specifications, as revised by the three referenced letters, accurately reflect the as-built plant and the Catawba FSAR. Furthermore, we are not aware of any conflicts between the "Draft" Catawba Unit 1 Technical Specifications and the NRC staff's SER analyses.

Very truly yours,

H. B. Tucker
