Mr. W. L. Stewart, Vice President
Nuclear Operations
Virginia Electric and Power Company
P. O. Box 26666
Richmond, Virginia 23261

Dear Mr. Stewart:

Subject: North Anna Power Station-Regulatory Effectiveness Review

From August 20-September 2, 1983, NRC Safeguards Division staff conducted a Regulatory Effectiveness Review at the North Anna Power Station, Units 1 and 2. The findings of that review are documented in the enclosed Part I, Safeguards Systems Effectiveness Review, and Part II, Vital Area Definition documents.

Although a number of notable strengths were observed in the safeguards program, certain safeguards matters were found that warrant further consideration. Accordingly, it is requested that you provide comments relative to those areas needing attention identified in the vital area designation recommendations in Part II of the report. A timely response will be appreciated.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.

The enclosures to this letter contain Safeguards Information of a type specified in 10 CFR 73.21 and must be protected against unauthorized disclosure.

Sincerely,

JS

James R. Miller, Chief
Operating Reactors Branch No. 3
Division of Licensing
