

OFFICE OF THE  
COMMISSIONER

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555

May 3, 1984

*Bill*,  
MEMORANDUM FOR WILLIAM J. DIRCKS, EXECUTIVE DIRECTOR  
FOR OPERATIONS

SUBJECT: GRAND GULF RESTART DECISION

Please provide a copy of the following staff documents by  
Monday, May 7th.

1. The sign-offs by the licensing staff that the Technical Specifications in the Grand Gulf license are currently correct and completely conform to the as-built plant.
2. The NRC staff sign-offs that the plant Final Safety Analysis Report has been revalidated as conforming to the as-built plant.
3. The staff sign-offs that the licensed operators and plant advisors were adequately trained and qualified for plant startup.
4. The investigation staff sign-offs that outstanding investigations have been adequately resolved for starting up the plant.
5. The staff documents which identified the cause for the technical specification errors, and surveillance procedures errors and the technical staff sign-offs that actions taken to prevent reoccurrence are satisfactory.
6. The staff sign-offs that the emergency diesel power supplies are fully qualified for plant operation.
