Gentlemen:

SUBJECT: REPORT NO. 50-261/84-06

On March 6-9, 1984, NRC inspected activities authorized by NRC Operating License No. DPR-23 for your H. B. Robinson Steam and Electric facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements. The violations, references to pertinent requirements, and elements to be included in your response are presented in the enclosed Notice of Violation.
