Date

Inspection Summary

Inspection on May 7-10, 1984 (Report No. 50-331/84-06(DRMSP))

Areas Inspected: Included a review of Security Organization - Personnel; Security System Power Supply; Assessment Aids; Access Control - Vehicles; Communications; Guard Force Training and Qualification Plan; Safeguards Information; and Licensee's Action on Previous Inspection Findings. The inspection involved 34 inspector-hours by one NRC inspector. The inspection began during the day shift.

Results: The licensee was found to be in compliance with NRC requirements within the areas examined. Corrective actions for violations and areas of concern identified in the previous inspection (50-331/83-19) appeared adequate to prevent recurrence.
