Docket Nos. 50-317
and 50-318
Mr. George C. Cree:
Vice President - Nuclear Energy
Baltimor: Gas and Electric Company
Calvert Cliffs Nuclear Power Plant
MD Rts. 2 & 4
P. O. Box 1535
Lusby, Maryland 20657

Dear Mr. Creel:

SUBJECT: EMERGENCY RESPONSE DATA SYSTEM IMPLEMENTATION PLAN - CALVERT CLIFFS NUCLEAR POWER PLANT, UNIT NOS. 1 AND 2

The U.S. Nuclear Regulatory Commission (NRC) has reviewed the Emergency Response Data System (ERDS) implementation plan which Baltimore Gas & Electric Company submitted in a letter dated October 28, 1991. Based upon this review, the NRC has found that your implementation plan provides the basis for an acceptable implementation of ERDS at the Calvert Cliffs facility.

Be advised that the testing phase of ERDS implementation involves all licensees testing with the NRC contractor, Halliburton NUS Environmental Corporation. Since the contractor does not have unlimited resources for testing multiple ERDS links simultaneously, close coordination with the Halliburton NUS personnel in scheduling your ERDS testing will be a key element in the successful completion of ERDS implementation. The project manager at Halliburton NUS is Mr. Tony LaRosa, and he may be reached at (208) 524-9227.

If you have any questions or problems in implementing the ERDS program, please contact Mr. John Jolicoeur, the NRC ERDS project manager, at (301) 492-4155 or contact me at (301) 504-1409.

Sincerely,

9203200213 520318 PDR ADDCK 05000317
