Washington, DC 20006

IN RESPONSE REFER  
TO FOIA-84-171

Dear Ms. Curran:

This is in response to your letter dated March 13, 1984, in which you requested, pursuant to the Freedom of Information Act (FOIA), three separate categories of documents relating to the "Seabrook Station Probabilistic Safety Assessment, Main Report."

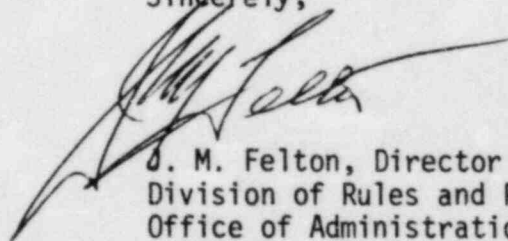

The documents listed on Appendix A are related to your request. These documents are being placed in the NRC Public Document Room in FOIA file folder 84-171 in your name.

The Seabrook Station Probabilistic Safety Assessment is currently in the PDR and may be found under accession number 8402070255. Inasmuch as neither contractor nor staff review of this study has begun, there are no review documents.

A contract for the review of the Seabrook PSA is expected to be entered into with Lawrence Livermore National Laboratory with Mr. Abel Garcia as the principal investigator. A copy of the Statement of Work is being placed in the FOIA file folder referenced above.

This completes NRC's action on your request.

Sincerely,

J. M. Felton, Director  
Division of Rules and Records  
Office of Administration
