Dear Mr. Jones:

SUBJECT: FORT CALHOUN STATION THERMAL SHIELD INSPECTION

This letter acknowledges receipt of your April 4, 1984 letter on the above subject. We agree with the District that it would be prudent to perform an inspection of the Fort Calhoun thermal shield, thermal shield support system, and core support barrel no later than the 1987 refueling outage. We also agree that it is proper for the District to submit a report to the Commission providing the results of the inspection shortly after the inspection is completed. This concludes the NRC staff work on this subject at this time.

Sincerely,

Original Signed by J. R. Miller
