Subject: Beaver Valley Power Station, Unit No. 1 and No. 2  
BV-1 Docket No. 50-334, License No. DPR-66  
BV-2 Docket No. 50-412, License No. NPF-73  
Semi-Annual Radioactive Effluent Release Report For The Second Six  
Months Of 1991

- Ref: 1) USNRC RG 1.21 Revision 1, June, 1974, Measuring,  
Evaluating, And Reporting Radioactivity In Solid Wastes And  
Releases Of Radioactive Materials In Liquid And Gaseous  
Effluents From Light-Water-Cooled Nuclear Power Plants
- 2) Beaver Valley Power Station Unit 1 And Unit 2 Technical  
Specifications 6.9.1.12 and 6.9.1.13, Semi-Annual  
Radioactive Effluent Release Report

Gentlemen:

The Semi-Annual Radioactive Effluent Release Report is hereby submitted in accordance with the requirements of Technical Specifications 6.9.1.12 and 6.9.1.13 for Beaver Valley Power Station Unit 1 license DPR-66 and Beaver Valley Power Station Unit 2 license NPF-73. This report contains the information required by USNRC Regulatory Guide 1.21 Revision 1 and Technical Specifications.

This report is considered a single submittal for the two unit site. This report combines those sections that are common to both units at the site. However, where two units have separate radwaste systems, the report does specify the releases of radioactive material from each unit. In reference to this, Unit 1 and Unit 2 have shared radwaste systems for gaseous elevated releases and for liquid releases. The report format is summarized on the index.

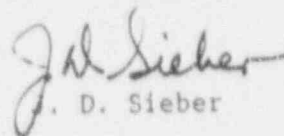

There was one abnormal liquid release during the report period. It occurred on July 26, 1991. Although the release was unplanned, it was determined to be within the Technical Specification Limits and no reporting was required per 10 CFR 50.72, 10 CFR 50.73, 10 CFR 20.403 and 10 CFR 20.405. This release involved the inadvertent discharge of 200 gallons of water from a Unit 1 Steam Generator Demineralizer Blowdown Tank to the Ohio River. The total discharge activity was  $1.10E-6$  curies. This event is documented in Beaver Valley Power Station Incident Report No. 1-91-054.
