Region II  
Attn: Mr. James P. O'Reilly, Regional Administrator  
101 Marietta Street, NW, Suite 2900  
Atlanta, Georgia 30303

Dear Mr. O'Reilly:

BELLEFONTE NUCLEAR PLANT UNIT 1 - SUPPLEMENTAL RESPONSE TO DEVIATION  
- 50-438/83-10-01, 50-439/83-10-01 - FIRE PROTECTION SYSTEMS NONCONFORMANCE  
WITH NFPA CODE

In response to R. C. Lewis' letter dated May 23, 1983, report numbers 50-438/83-10, 50-439/83-10 concerning activities at the Bellefonte Nuclear Plant which appeared to deviate from commitments to the Commission. TVA had submitted a final response on July 7, 1983 and a revised response on August 26, 1983. Below is our supplemental response to deviation 50-438/83-10-01, 50-439/83-10-01.

As discussed with NRC-OIE Inspectors Linda Watson on November 9, 1983 and Paul Fredrickson on November 28, 1983, the date of October 31, 1983, for the completion of corrective actions for design was not met. These actions were completed on November 16, 1983. In addition, the date of January 15, 1984 for completion of installation of a flange enclosed waste cone in the relief valve discharge line will not be met due to a recent reassessment of the construction schedule for these activities. Site installation is now scheduled for completion by November 14, 1985.

If you have any questions concerning this matter, please get in touch with R. H. Shell at FTS 858-2688.

To the best of my knowledge, I declare the statements contained herein are complete and true.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

  
L. M. Mills, Manager
