COMPANY MINNEAPOLIS, MINNESOTA BEAD! July 18, 1977 Mr Victor Stello c/o Distribution Services Branch, DSB, ADM U S Nuclear Regulatory Commission Washington, DC Dear Mr Stello: MONTICELLO NUCLEAR GENERATING PLANT Docket No. 50-263 License No. DPR-22 Change to NEDE-20179, Monticello Segmented Test Rod Bundle Submittal (Proprietary Information) On December 14, 1973, we submitted proprietary report NEDE-20179 describing the Monticello Segmented Test Rod Bundle. On January 15, 1974, we supplied a replacement page for Table 3-1 of that report. On August 20, 1975, we submitted Addendum I to NEDE-20179. Each of these submittals were provided to document changes made to the segmented test rod bundle within the scope of the initially described program. During our Fall '77 outage, we intend to make one more such change. We have, therefore, attached a replacement page for Table 3-1 to maintain your files in a current status. The changes are being reviewed, documented, and reported in accordance with 10CFR50.59. As with the initial report, we request limited distribution of this information consistent with proprietary information procedures. Yours very truly, L O Mayer, PE Manager of Nuclear Support Services LOM/MHV/deh cc: J G Keppler (w/o proprietary information) G Charnoff MPCA Attn: J W Ferman (w/o proprietary information) 9106100528 770718 PDR ADOCK 05000263 772150001 ATTACHMENT CONTAINS LOCFR PART 2.790(d) INFORMATION
