Perry, OH 44081

Dear Mr. Lyster:

Thank you for your 10 CFR 50.71(e) submittal dated March 5, 1992, which incorporates changes in your Quality Assurance Program description. We have reviewed the changes associated with this submittal along with the program changes to Section 3.2, Classification of Structures, Components, and Systems; and Section 1.8, NRC Regulatory Guide Assessment. With regard to Section 3.2, it is our understanding, based on a telephone discussion between Mr. F. Maura of this office and Mr. J. Emley of your staff on Marc 20, 1992, that Items 10 through 15 on page 3.2-17 apply to components of the standby Liquid Control Transfer System, and that you plan to identify them as such in your next submittal. Based on our review, we conclude that these revisions continue to meet the requirements of 10 CFR Part 50, Appendix B, and are acceptable. If there are changes to QA commitments existing in docketed correspondence outside of the Quality Assurance Program Description, you are obligated to notify this office.

We appreciate your timely submittal of information required by 10 CFR 50.71(e). Please contact Mr. Monte Phillips of my staff at (708) 790-5530 with any questions you may have regarding this matter.

Sincerely,
