MEMORANDUM FOR: Ronald C. Haynes
Regional Administrator
U.S. NRC Region I

FROM: William J. Dircks
Executive Director for Operations

SUBJECT: EVALUATION OF THE GINNA EVENT

Reference: Memo from Chairman Palladino to W. J. Dircks,
"Task Force for the Evaluation of the Ginna Event"
dated 1/29/82 (copy attached)

This is to confirm our conversation of February 1, 1982. I am establishing a Task Force to undertake a review and evaluation of the Ginna event.

You are appointed to organize and direct that Task Force. In order to develop criteria and a schedule for the investigation and report, a Steering Group will be established composed of yourself as Chairman and one senior representative from Region I, IE, NRR and AEOD. Contact those Offices directly to acquire mutually acceptable committee members.

You are authorized to task NRC offices directly to accomplish the work. Offices will give priority to your requests unless they obtain relief directly from me.

I request that you keep me advised of progress and difficulties encountered as necessary, and specifically arrange to brief me by the first week of March on the progress of the work. The final draft of the report should be provided the Commission by March 17, 1982, followed by a Commission briefing and issuance of the report as a NUREG.

William J. Dircks
Executive Director
for Operations
