ENGINEERING AND RESEARCH

MAY 25 1984

Mr. A. Schwencer, Chief
Licensing Branch No. 2
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Limerick Generating Station
Docket Number 50-352
Construction Completion/Fuel Load Date

References: 1. Letter from PECO-J. S. Kemper to
NRC-A. Schwencer dated April 11, 1984.
2. Applicant's Motion for an Expedited
Partial Initial Decision and Issuance
of a Low-power License for Fuel Loading
and Low-power Testing.

File: GOVT 1-1 (NRC)

Dear Mr. Schwencer:

This letter informs the staff of a change in the
planned fuel load date for Limerick from August, 1984, until
September 15, 1984.

The reference 1 letter stated that a full-scale
technical review of the status of remaining activities was
to be done, in order to obtain a more accurate picture of
the schedule. This review has been completed. We have
concluded that we will be prepared to load fuel in Unit 1
on or about September 15, 1984. We trust you will assess
the NRC staff workload and assure that the necessary
resources are applied to the project to support this date.

The reference 2 motion was filed with the Atomic
Safety and Licensing Board on May 9, 1984.

We do not anticipate any change in the September 15
date. However, we will apprise you if a revision is under
consideration so that NRC staff resources can be
appropriately allocated.

Sincerely,

8405300418 840525
