Docket Nos. 50-387
50-388

Mr. Harold W. Keiser
Senior Vice President - Nuclear
Pennsylvania Power & Light Company
2 North Ninth Street
Allentown, Pennsylvania 18101

Dear Mr. Keiser:

Subject: Combined Inspection Report Nos. 50-387/91-11 and 50-388/91-11

This letter refers to the routine safeguards inspection conducted by Messrs. G. Smith, E. King and Ms. S. Fiveash of this office on July 8-11, 1991, of activities authorized by NRC License Nos. NPF-14 and NPF-22 at the Susquehanna Steam Electric Station (SSES), Units 1 and 2, in Berwick, Pennsylvania, and to the discussions of our findings held by Mr. Smith with J. Dalpiaz and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors. No violations were observed.

We found that the physical security program being implemented at the SSES was directed toward the protection of public health and safety and noted that the continuing program upgrades made significant contributions to the overall effectiveness of the program. No violations were identified.

No reply to this letter is required. Your cooperation is appreciated.

Sincerely,

Original Signed By:
