P. O. Box 300  
Seabrook, New Hampshire 03874

FACILITY: Seabrook

EXAMINATION DATES: February 26, 1992

CHIEF EXAMINER:   
Kerry D. Ihnen, Operations Engineer

3/12/92  
Date

APPROVED BY :   
Peter Eselgroth, Chief, PWR Section  
Operations Branch, Division of Reactor Safety

3/25/92  
Date

SUMMARY: A walk-through examination (retake) was administered to one senior reactor operator (SRO). The examination was graded concurrently and independently by the NRC and the facility training staff, resulting in the individual passing that portion of the examination.

## DETAILS

TYPE OF EXAMINATION: Requalification (Retake)

### 1.0 Examination Results

One senior reactor operator (SRO) was administered a walk-through requalification examination (retake) utilizing the job performance measure (JPM) methodology of NUREG-1021. As graded by the NRC and the facility, the individual passed the walk-through examination.

### 2.0 Persons Contacted

#### Facility Station Personnel

- \* L. Carlsen            Operations Training Supervisor
- \* R. Hanley            Operations Training Manager
- \* L. Hubbard           Operations Training

#### U. S. Nuclear Regulatory Commission

- \* K. Ihnen            Chief Examiner

\* Denotes those present at the exit meeting conducted on February 26, 1992.

### 3.0 Exit Meeting

An exit meeting was conducted February 26, 1992, at the Seabrook training center, at which meeting the purpose of the day's activities was presented and discussed. The licensee provided the NRC with their preliminary results for the retake requalification examination. The Chief Examiner commended the training department for their efforts in scheduling the examination such that it could be completed in a timely manner.
