Docket No. 50-482

Mr. Bart D. Withers
President and Chief Executive Officer
Wolf Creek Nuclear Operating Corporation
Post Office Box 111
Surlington, Kansas 66639

Dear Mr. Withers:

SUBJECT: EMERGENCY RESPONSE DATA SYSTEM IMPLEMENTATION PLAN

The U.S. Nuclear Regulatory Commission (NRC) has reviewed the Emergency Response Data System (ERDS) implementation plan for the Wolf Creek Generating Station which was submitted in a letter dated October 28, 1991. Based upon this review, the NRC has found that your implementation plan provides the basis for an acceptable implementation of ERDS at your facility.

Be advised that the testing phase of ERDS implementation involves all licensees testing with the NRC contractor, Halliburton NUS Environmental Corporation. Since the contractor does not have unlimited resources for testing multiple ERDS links simultaneously, close coordination with the Halliburton NUS personnel in scheduling your ERDS testing will be a key element in the successful completion of ERDS implementation. The project manager at Halliburton NUS is Mr. Tony LaRosa, and he may be reached at (208) 524-9227.

If you have any questions or problems in implementing the ERDS program, please contact Mr. John Jolicoeur, the NRC ERDS project manager, at (301) 492-4155 or me.

Sincerely,

Original Signed By

William D. Reckley, Project Manager
Project Directorate IV-2
Division of Reactor Projects - III/IV/V
Office of Nuclear Reactor Regulation
