

APR 27 1984

Docket No. 50-361

Southern California Edison Company  
2244 Walnut Grove Avenue  
Rosemead, California 91770

Attention: Mr. C. B. McCarthy, Vice President  
Advanced Engineering

Gentlemen:

Subject: NRC Inspection of San Onofre Unit 2

This refers to the special inspection conducted by Mr. J. H. Eckhardt of this office on August 22-26 and October 31-November 4, 1983, of activities authorized by NRC License No. NPF-10.

The inspection involved allegations concerning mechanical shock arrestors. Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

No items of noncompliance with NRC requirements were identified within the scope of this inspection.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
